

a light source; and

a reflective surface positioned to reflect light received from said light source toward the video screen.

Claim 2, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 3, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 4, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 5, line 1, before "light" delete "combined" and after "light" delete "magnifier";

Claim 6, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 7, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 8, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 9, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 10, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 11, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 12, line 1, delete "combined light/magnifier" and substitute therefore --light--;

--13. (Amended) A [combined] light/[magnifier] assembly for use in enhancing the view of compact computer video screen, the compact computer device having a power supply, an on/off power switch and a link port adapted to connect the compact computer device to another compact computer device, the [combined light/magnifier] light assembly comprising:

a frame having a frame opening formed from an upper frame opening and a lower frame opening, said frame opening being positionable over the video screen;

[a magnifying lens disposed within said upper frame opening;]

a2
cont
a light source disposed at a side of said frame for projecting light toward an
opposing side of said frame; and

a reflective surface disposed at said opposing side and adapted to receive
and reflect light from said light source toward the video screen.--

Claim 14, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 15, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 16, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 17, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 18, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 19, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 20, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 21, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 22, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 23, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 24, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 25, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 26, line 1, delete "combined light/magnifier" and substitute therefore --light--;

a3
--27.(Amended) A [combined] light[/magnifier] assembly for use in enhancing the
view of compact computer video screen, the compact computer device having a power
supply, an on/off power switch and a link port adapted to connect the compact computer

device to another compact computer device, the [combined light/magnifier] light assembly comprising:

a frame having a frame opening being positionable over the video screen;

[a magnifying lens disposed within said frame opening;]

a light source for projecting light in a predetermined direction; and

a reflective surface positioned in a path of said predetermined direction to receive and reflect light from said light source toward the video screen.--

Claim 28, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Claim 29, line 1, delete "combined light/magnifier" and substitute therefore --light--;

Please add the following new claims 30 - 34:

--30 (New) The light assembly according to claim 1, further comprising a magnifying lens disposed within said frame opening.--

--31 (New) The light assembly according to claim 5, further comprising an external jack adapted to provide a user accessible link port when said plug is disposed within the link port of the compact computer device.--

--32 (New) The light assembly according to claim 13, further comprising a magnifying lens disposed within said upper frame opening.--
